ABOUT ME

A detail-oriented and analytical-minded graduate with a strong foundation in statistics, data visualization, and SQL, seeking an entry-level position in Data Analytics. Eager to apply data interpretation skills and analytical tools like Excel, Python, Power BI, and Tableau to derive actionable insights and support data-driven decision-making. Committed to continuous learning and contributing to the success of a dynamic organization.

EDUCATION

MCA Jain University, Bangalore Pursuing 8.38 SGPA 1st Sem	2024-Present
BCA New Horizon College Marathahalli Bangalore 8.47 CGPA	2020-2023
12th Marwari College Darbhanga 64.6%	2017-2019
10th U.H.S.Kewalpatti 73.2%	2017

PROJECTS

1.Blinkit Dashboard:-

Description:

- Developed an interactive Power BI dashboard to analyze sales, delivery performance, total sales, Avg sales, and Number of items for Blinkit. a hyperlocal delivery platform.

Key Features:

- The dashboard provides key insights into product categories, order volumes, delivery time efficiency, customer satisfaction, and regional performance.

Tools & Technologies:

- Python, SQL, Power Query, and Power BI.

2. HR Analytics Dashboard:-

Description:

- HR Analytics – Employee Attrition Prediction. Analyzed HR dataset to identify key factors influencing employee attrition using Python and exploratory data analysis (EDA).Built and evaluated machine learning models such as Logistic Regression and Decision Tree to predict employee turnover. Applied data preprocessing, feature selection, and visualization techniques to extract insights from workforce data.

Key Features:

- This dashboard provides key insights into Attrition of Age, Salary slab, Year at company, Job Role, Gender, and Education.

Tools & Technologies:

- Python, Jupyter Notebook, Power Query, And Power BI.

3. Sales And Customer Analytics:-

Description:

- Sales & Customer Insights Dashboard. Designed an interactive dashboard to visualize sales performance, customer segmentation, and product trends. Tracked KPIs including total sales, customer count, average order value, and top-performing products. Implemented filters and drill-down features to enable region-wise and category-wise analysis.

Key Features:

- This dashboard provides key insights into Total Customer as per sales, Total sales, Total Profit, Total Quantity, and Total Overtime.

Tools & Technologies:

- Tableau, Excel, DAX, Power Query, And SQL.

4. Human Resource Dashboard:-

Description:

- HR Dashboard – Employee Overview & Performance Insights. Created a comprehensive HR dashboard to visualize key workforce metrics, including overview, demographics, age distribution, salary, income, education, and performance. Designed interactive visuals to help HR teams track trends in employee profiles, identify skill gaps, and monitor organizational diversity.

Key Features:

- key workforce metrics, including overview, demographics, age distribution, salary, income, education, and performance.

Tools & Technologies:

- Tableau, Excel, and Power Query.

CERTIFICATIONS

- Data Analysis.
- Artificial Intelligence.
- Generative AI.
- Azure Data Fundamentals.
- Power BI.

TECHNICAL SKILLS

Programming Languages - C, Python.

Data Analysis & Visualization Tools - Power BI, Tableau, Excel, and Power Query.

Operating Systems- Linux, Windows.

Web Development - HTML, CSS, JavaScript.

Tools & Library - Git, Pandas, Numpy, Seaborn, Matplotlib.

Database - SQL.

SOFT SKILLS

1.Analytical thinking

2.Quick learner
