ABOUT ME

A detail-oriented and analytical-minded graduate with a strong foundation in statistics, data visualization, and SQL, seeking an entry-level position in Data Analytics. Eager to apply data interpretation skills and analytical tools like Excel, Python, Power BI, and Tableau to derive actionable insights and support data-driven decision-making. Committed to continuous learning and contributing to the success of a dynamic organization.

EDUCATION

MCA Jain University, Bangalore Pursuing 8.38 SGPA 1st Sem	2024-Present
BCA New Horizon College Marathahalli Bangalore 8.47 CGPA	2020-2023
12th Marwari College Darbhanga 64.6%	2017-2019
10th U.H.S.Kewalpatti 73.2%	2017

PROJECTS

1. OLA Ride Booking Data Analysis:-

Description:

- Developed and analyzed a large-scale synthetic dataset (100K+ records) simulating OLA ride bookings in Bengaluru, applying business-driven rules to study booking patterns, cancellations, demand spikes, and pricing behavior using Python, SQL, and Excel.

Key Features:

- Engineered a synthetic dataset of 100,000+ OLA ride bookings for Bengaluru, replicating real-world business rules, booking outcomes, and demand fluctuations.
- Implemented data validation and transformation pipelines, ensuring logical integrity across cancellations, incomplete rides, VTAT/CTAT, pricing tiers, and customer/driver ratings.
- Analyzed booking success rates (82%), cancellation trends (customer <5%, driver <9%), and incomplete rides (<4%), providing insights into operational efficiency.

Tools & Technologies:

- Python (Pandas, NumPy), SQL, and Excel for data generation, cleaning, and exploratory analysis.
- Power BI for Data Visualization and Dashboard Creation.

2. Blinkit Dashboard:-

Description:

- Built an interactive Power BI dashboard to analyze sales, delivery performance, and customer behavior.

Key Features:

- Tracked KPIs (Total Sales, Avg Sales, Delivery Time, Customer Satisfaction).
- Enabled region-wise and category-wise performance insights.

Tools & Technologies:

- Power BI, SQL, Power Query, Python.
- Dashboard Design (Power BI), KPI Analysis

3. Banking Risk Data Analyst :-

Description:

- Designed and developed an interactive Power BI dashboard to analyze key banking KPIs including loans, deposits, client engagement, and fees. The project focused on risk analytics, helping banks assess customer profiles, identify high-risk loan categories, and support data-driven lending decisions.

Key Features:

- Data cleaning and transformation (Engagement Timeframe, Income Band, Processing Fees).
- KPI tracking: Total Clients, Total Loan, Total Deposits, Engagement Days, Fees.
- Loan & Deposit Analysis dashboards with drill-down insights.
- Advanced DAX measures (SUMX, DISTINCTCOUNT, SWITCH, DATEDIFF) for dynamic calculations.
- Automated reporting to reduce manual effort and improve decision accuracy.

Tools & Technologies:

- Power BI (Dashboards, Visualizations, KPI Design), Power Query (Data Cleaning & Transformation).
- DAX (Advanced Calculations & KPIs), SQL & Excel (Data Sources and Preprocessing).

4. Pizza Sales Analysis Dashboard:-

Description:

- Developed a data analytics solution to analyze and visualize pizza sales data using MySQL Server, And Tableau.

Key Features:

- Calculated key KPIs: Total Revenue, Average Order Value, Total Orders, Total Pizzas Sold.
- Created interactive Power BI dashboards to visualize hourly/weekly sales trends, product performance, and category-wise sales distribution.
- Enabled data-driven decisions by providing clear insights on top/bottom-selling products.

Tools & Technologies:

- Tools: MySQL Server, Tableau, Data Visualization, Business Intelligence.

CERTIFICATIONS

- | | |
|---|---|
| 1. Data Analysis (Microsoft & LinkedIn) | 2. Artificial Intelligence & Generative AI (Microsoft & LinkedIn) |
| 3. Azure Data Fundamentals (Microsoft & LinkedIn) | 4. Power BI (Microsoft Press & LinkedIn) |

TECHNICAL SKILLS

Programming Languages - C++, Python.	Web Development - HTML, CSS, JavaScript.
Data Analysis & Visualization Tools - Power BI, Tableau, Excel, Statistics, and Power Query.	Tools & Library - Git, Pandas, Numpy, Seaborn, Matplotlib.
Operating Systems- Linux, Windows.	Database - SQL.

SOFT SKILLS

- | | |
|-----------------------|-----------------|
| 1.Analytical thinking | 2.Quick learner |
